OF THE YEAR®

2021 Girl of The Year!

Tessa was diagnosed with Acute Lymphoblastic Leukemia in 2018. Because Tessa is one of the special few who are born with an extra 21st chromosome, known as Down's Syndrome, she was 5% more likely to be diagnosed with a pediatric blood cancer. Tessa finished her last round of chemotherapy in May of 2020 and is currently in remission!

2021 Girl of The Year!

Today, Tessa is a healthy 4 year old who lives in Highland, Utah with her Mom & Dad, Mindy and Rick, and her 4 siblings: Gracie, Andelin, Noah, and Lincoln. She likes to swing and play in her sandbox. Tessa loves all things musical, especially dancing and singing with her 4 siblings! She is our honored hero, bringing hope and joy to all that meet her!

Thank you from our Family of The Year!

They drew pictures just for YOU!

Sister of The Year
Andelin!
